J. Opening of a sports academy (Academv).

IT WILL BE IMPLEMENTED EVERY DAY of the year

ACTIVITIES CARRIED OUT IN THE YEAR 2022 OF THE FRIENDS OF ZANZIBAR AND MONDO ODV ASSOCIATION

Kindergarten: In mid-January the new year started again with the continuation of the enrollments of new children to replace those who left for nursery school, even the deaf and dumb started with them. The uniforms made by local seamstresses were provided, as well as 2 TShirts, part of which was donated, backpacks with school supplies, donated by individuals and a friendly association, and sandals donated by a member with a fundraiser she carried out. - _In February, children with severe motor disabilities also started the school year, to which 4 new girls and 2 deaf-mute boys were added, all thanks to the French Association Tabasamu Moja which contributes to the cost of the physiotherapist who comes to school 3 times a week for physiotherapy and psychomotor rehabilitation. The children are also supervised by 2 people to help with autonomy, by the lip sign language teacher for the deaf-mute, and to support play activities for children with severe motor disabilities. To all this is added a taxi that picks up the children at home, takes them to school together with aid for autonomy and then takes them back home. All disabled children are placed with able-bodied children, to promote inclusion. --_The necessary school supplies have been purchased, books, notebooks and objects such as staplers, rulers, rulers, scissors, glue and Bristol board. _Medical visits were carried out for the certificate of good health for the Ministry of Education, periodic visits for children found with mushrooms, eczema, otitis, sore throat. All were treated with medicines purchased from us. The visits are repeated as needed even in the presence of the parents, and care is provided. With this initiative we tend to invite families not to underestimate some pathologies and to make it a habit to monitor the health of their children

_We offer children a protein snack with porridge, a mix of protein cereals to which a portion of milk is added for Monday, Wednesday and Friday, while on Thursdays milk, bread and cheese are given; since most of them have a poor diet, we try to make up for it with a protein snack. On Fridays they have mixed fruit with biscuits to supplement the vitamins.

_on June 15, 2022 we had to carry out a government salary contract for teachers and physiotherapists, whose costs increased by 30% due to taxes and contributions, since the trial period as volunteers had passed. We changed Accountant with one practical for NGO Associations like ours, we had to make a Statute also in Zanzibar, duly registered with the Government of Zanzibar and Tanzania as a No Profit; consequently we also had to open a current account in a bank in Zanzibar.

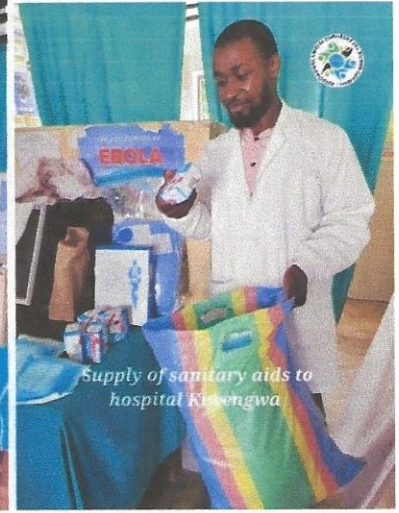

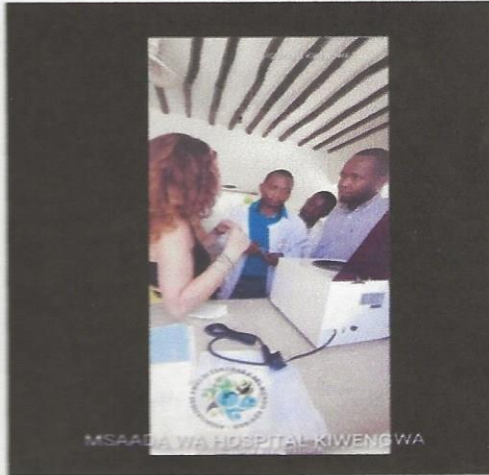

Total cost TSH. 91.406.076

Hospital: In March 2022 we delivered a centrifuge with accessories for serum and blood tests thanks to a fundraiser of members, the device was delivered in the presence of an official from the Ministry of Health and the Mayor, and an agreement was also signed between the parties to provide the service; a member who works at the Grosseto hospital intervened to give instructions on the use of the equipment. _We continued to supply medication material, small devices such as Aerosols with medicines, blood sugar measurements while the medicines were supplied until August 2022, and then suspended, since the doctor was no longer on duty at the hospital and doctors rarely came from other parts. We held a tug of war with the Ministry and we involved the Mayor of the Municipality explaining the Situation and after various attempts the Doctor was sent, we began to periodically replenish the medicines, checking the situation at the hospital.

Total Cost: TSH. 17.800.45

Medical Center: In October 2022, following the authorization from the Ministry of Health, we began the redevelopment and organization of the internal spaces of the building next to the hospital, granted to us by government bodies, free of charge for 25 years to create a Medical Center and Foresteria for the volunteers who will work there. The Medical Center will have a dental clinic which will be set up in collaboration with the SMOM ODV Association, Dentisti Italiani Nel Mondo, which will set it up and organize the roster of dentists and hygienists who will operate there. An obstetric-gynecological clinic will also be created, with a health education project for women and children; 2 multi-specialist clinics for various branches such as paediatricians, physiotherapists, ophthalmologists, dermatologists, etc. The redevelopment of the internal part was completed in December except for a few small adjustments, the external redevelopment will take place in the new year.

Project for the disabled: deaf-mutes will go to the government school for the first 3 hours of school in January to attend the primary school for inclusion accompanied by our assistant teacher of sign and lip language, and then they will return to our school to continue the program dedicated to them .

_Build a dedicated classroom equipped with aids for physiotherapy motor re-education activities for children with severe motor disabilities, with a part of the 5x1000, with toilets set up for them and next to the classroom, whose toilet funds were donated to us by Rotary of Zanzibar, all built with architectural barriers, since the children are currently supported in the multi-activity classroom.

Hospital: continue the supply of spare parts for machinery, medical aids, medication material and quarterly supplies of medicines, monitoring the presence of medical personnel.

_Redevelop the outside of the Ospedalino and the bathrooms.

Medical Center: Redevelop and repair the entire external part, sidewalk walls, equip a slide for the disabled, install mosquito nets on external gates, install a gazebo for use by volunteers, set up all the clinics, furnish the guesthouse, register the Medical Center with the Institutions responsible, install an electricity meter, provide for an electrical continuity system in the event of a power outage. Organize the management of the Center also in collaboration with other associations and projects.

-We sincerely thank all the volunteers who have done their utmost during the year to follow the kindergarten, the Italian member physiotherapists who have worked for children with severe motor and cognitive disabilities, the dental and medical visits, the Ospedalino support project and realization of the Medical Center, thanks to everyone without exception for the collaboration, moral and economic support. Without all of this we would not have accomplished what has been done so far.

The President, the Board of Directors everything.
